Privilège

Towering topsides of the Privilège Signature 580 alongside

We're excited to introduce you to the exclusive Privilège Lookbook - a world of colour, texture and grain to help inspire you to create your new catamaran. It's a matter of personal style and taste, and we are here to help realise your vision.

A Privilège catamaran is more than just a yacht – it is a personal dream and a passion we share. Creating your perfect Privilège catamaran is a journey we will make together. That's why we are looking forward to welcoming you to our shipyard in Les Sables d'Olonne. There you can run your eyes over the shades of fabric, touch the grain of the furniture and appreciate the quality of the leather we use. See you soon!

DECK . HULL . WATERLINE

PAINTED COLOURS
OPTION

You can choose from a huge range of different paint colours. The hull can be painted in almost every colour in non-metallic or metallic painting.

BLACK
STANDARD

exception: Signature 580
has no waterline

*Colours are
a symphony
for the eyes.
Express yourself!*

Pure white, scarlet red or brooding grey – whatever colour you choose, the hull of your Privilège yacht will exhibit the perfect symmetry of fair lines and depth, a richness that is born of our exceptionally meticulous lay-up and finish.

waterline

The rig can also be given a stylish finish of your choice. Mast, spreaders, boom and crossbeam can be specced in jet black, gleaming white or black grey. And the coachroof trim can also be white or black. Our fully equipped paint shop can achieve an impeccable, durable finish.

EXTERIOR

steering wheel

You'll spend a lot of time at the helm of your new Privilège, relishing its sailing capabilities. So it makes sense that you can choose a wheel that suits both you and the look of the boat. The standard is a high quality stainless-steel wheel with five spokes and hand-stitched leather cover, giving it an exclusive edge. Or select a composite Y-spoke race wheel.

RACE Y-FORM OPTION

Our Y-spoke GS wheel is composite, finished in the same white, black or grey as the spars.

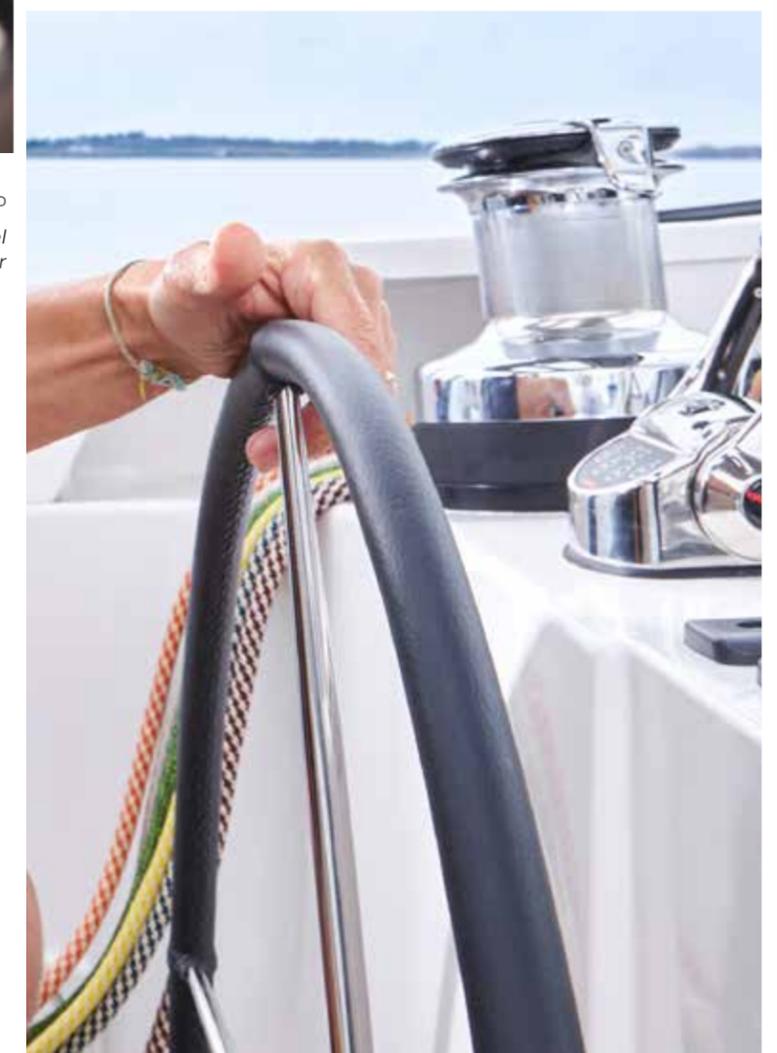

CARBON OPTION

Enjoy the best possible sailing performance with a lightweight Carbon fiber wheel. Or choose any custom colour from the RAL standard palette – the choices run into the hundreds.

STEERING WHEEL STANDARD

Stainless-steel steering wheel covered with leather

*That sense of freedom,
of possibility –
it is never stronger
than when your hands
are on the wheel*

EXTERIOR

sails

GENNAKER . SPINNAKER

For bluewater sailing it's smart to have a specialist downwind sail in the locker. It makes for a more comfortable, faster ride off the wind, and with our designs, they're easy to trim and furl. There's always excitement on board when the gennaker or spinnaker comes out, and now you can even put your own design on your sails.

GENNAKER OPTION

Signature 510 possible colours: White, Red, Deep Blue, Cool Grey and Black

Signature 580 & Serie 640: only White colour possible

SPINNAKER OPTION

Full Privilege range of possible colours: White, Ocean Blue, Deep Blue, Red, Orange, Lemon, Grey, Black,

INDIVIDUAL LOGO OPTION

Make an authentic statement of your gennaker or spinnaker by putting your logo on it. Thanks to our sail partner, it has never been easier for Privilege owners to configure the design of their downwind sails.

OWN DESIGN OPTION

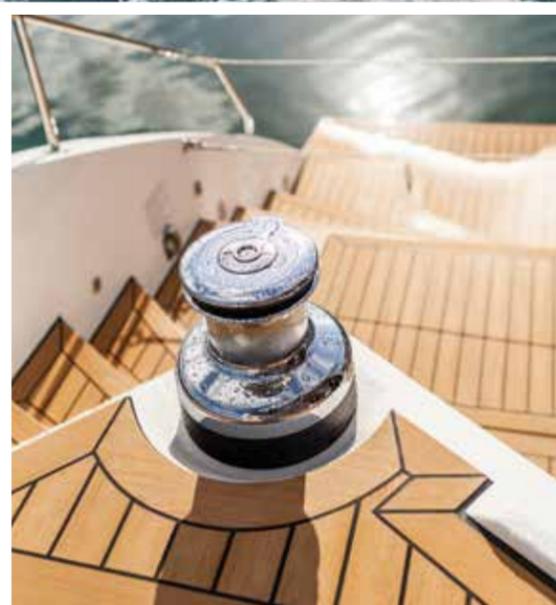

Customise your gennaker or spinnaker with your choice of colours. Create a pattern using a configuration tool that makes it simple – a few clicks is all it takes.

*Real or synthetic
teak decking adds
a warmer look
to the boat*

Our craftsmen have many years' experience of laying fine decks. Their finish is second to none and really brings out the quality of a Privilege catamaran. Decking is warmer underfoot, helps insulate sound and looks fantastic. What's more, there are a number of different tones available.

EXTERIOR *floorboard*

COCKPIT . AFT PLATFORM . TRANSOMS

REAL TEAK OPTION

Real teak lasts a generation, looks great and is easy to maintain. We offer it with classic black caulking.

SYNTHETIC TEAK OPTION

A new generation of synthetic teak is recyclable, hard wearing, zero maintenance and insulates against heat and noise. We recommend scrubbed teak effect with either black, grey or white caulking

EXTERIOR fabrics

BIMINI . CANOPY . UV-COVERS SAILS . LAZY BAG

ARCTIC BLUE

CELESTIAL

FOREST GREEN

MARBLE

NATURAL

OYSTER

PAPYRUS

DUNE

HEMP BEIGE

CRIMSON RED

JET BLACK

With a well-designed lazy bag, the sail will flake straight into the fabric sides, where a zip-up top completes the full UV protection.

BOAT NAME OPTION

Individualise the lazy bag with the name of your yacht.

Sail covers, lazy bags, biminis and canopies are all a smart investment to protect your boat. Covers can also keep the cockpit shaded or provide shelter in hot and cold climates.

Our suppliers are among the best-known names in the business, with a wide range of 32 colours and fabric weights. Their products are water- and stain-resistant, withstand UV light and keep their shape well. So your boat will always look her best.

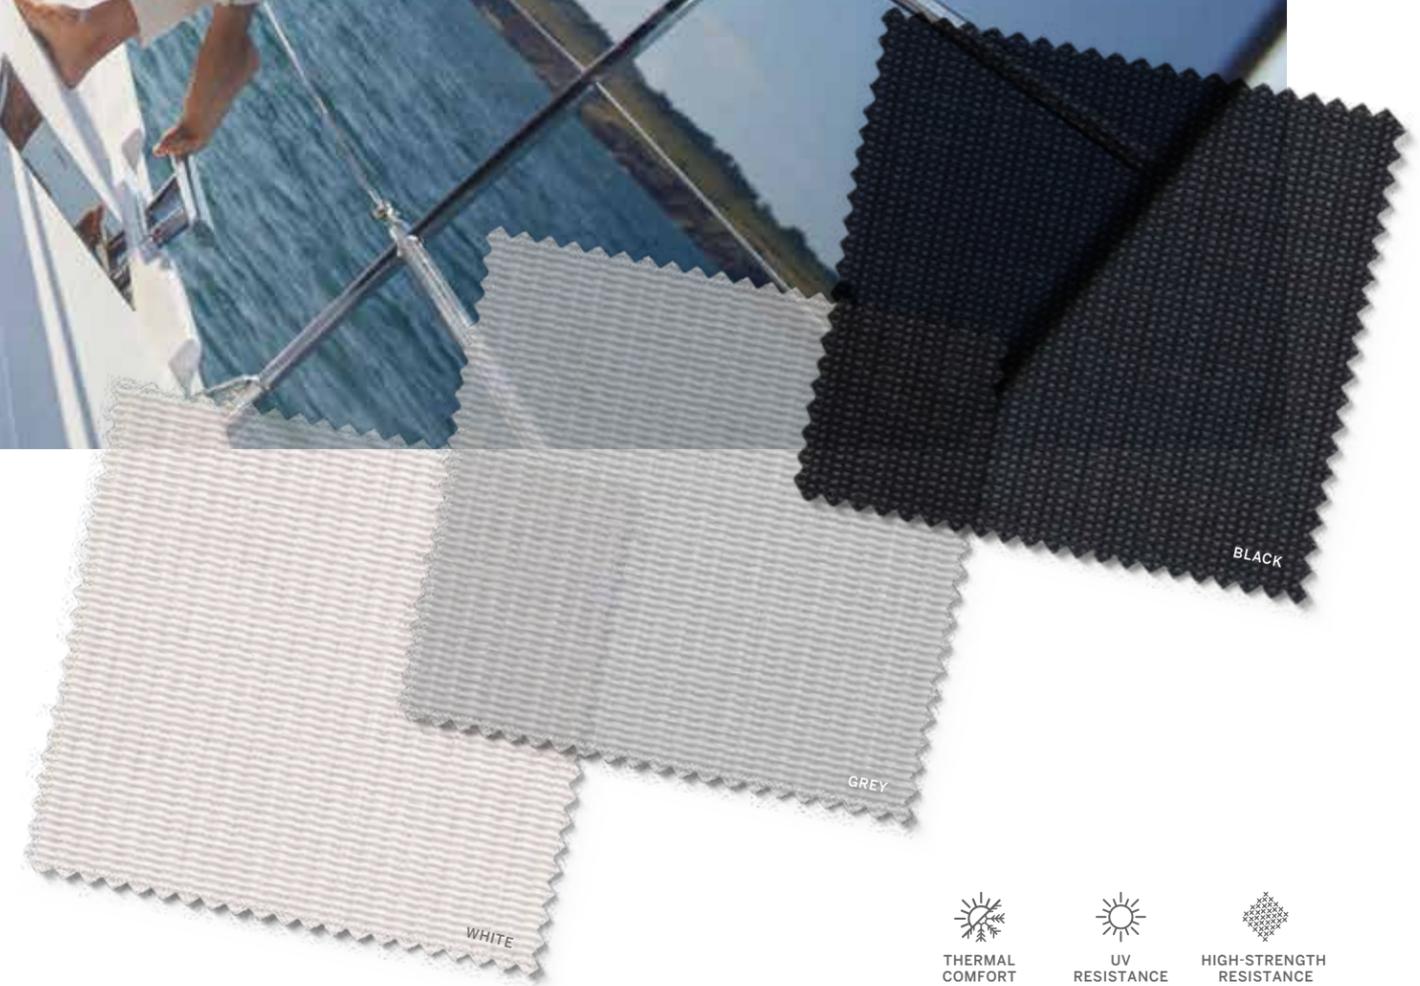

Cockpit tents, flybridge enclosures, awnings, lazy bags and UV strips for sails can all be colour co-ordinated.

With all that glazing in the coachroof of Privilège catamarans, it makes sense to consider covers. Available for the deckhouse windows forward and at the side, they keep the glass clean, offer shade in hot climates and protect the interior from UV rays. Plus they help keep the glass clean and assure discretion for you and your crew.

SILVERTEX STANDARD
 Our standard exterior upholstery offers you a choice of textile fabrics in around 60 different colours. From natural shades to tropical greens, deep mauves and vibrant red, every inch is water-resistant, stain-resistant and UV-stable.

*Colour
 your world
 to raise
 your spirits*

A bright colour gives strong character to a space, making it truly yours

EXTERIOR
upholstery

HELM STATION . COCKPIT . SUNBED CUSHIONS

Privilège doesn't simply build bluewater catamarans. We create the spaces for you to live out your dreams; enjoy experiences you'll never forget. And in order to do that, those spaces must be perfectly in tune with your vision. That's why we offer a much broader range of finishes than many boatbuilders. And nowhere more so than in the exterior cushions that give personality to the cockpit, helm station and sun pads.

EXTERIOR

upholstery

Our exterior fabrics are a unique combination of softness and performance. The textiles are wonderfully soft to the touch, with a natural look. There are solid colours and a subtle but attractive woven look shot through with different tints. But whichever of the 25 colours you choose, you are guaranteed extreme durability thanks to stain resistance, mould resistance and water resistance. It also dries quickly. Colours won't fade with UV exposure and the fabric itself has excellent dimensional stiffness, so it keeps its shape perfectly. Maintenance is simple and the fabric performs well in hot or cold conditions.

LEATHER OPTION
 Top quality leather, yet stain- and UV-resistant. Choose from a range of 20 natural tones, reds, blues and greys.

EXTERIOR

upholstery

New techniques and treatments mean that it is now possible to offer fine, natural grained leather upholstery for exterior use. Our leather is water-resistant, UV-resistant and extremely hard-wearing. And yet our leather sacrifices none of the beguiling look and feel that this material is known for.

Marc Lombard has been the chief designer for Privilège since 1985. In that time, he has perfected the balance between performance, safety and comfort. "For more than 3 decades I have sailed and lived the Privilège dream. Every Privilège is designed and built to combine seaworthiness with comfort, luxury and pleasure, a true masterpiece on the sea."

Historically focused on racing, Marc Lombard was the very first naval architect to employ hydrodynamic specialists within his growing team.

Marc Lombard

I love to do hand sketches to get a first feeling for the spirit of the boat.

Naval architecture is about making progress every day. We never pause, we never sit back:

We are constantly questioning our designs and seeking to improve them.

What I love most about sailing is the exceptional relationship with nature and the simple way of life that a sailing boat induces. I also like playing with the wind.

Superyacht interior designer Franck Darnet is undoubtedly one of the world's most renowned interior designers for custom yachts and luxury hotels. "We design bright and attractive interiors to live in, which provide pleasure and a sense of space." His refined designs are found on every Privilège making them the most elegant multihulls today.

Franck grew up in a sailing family which included a designer, and so was always destined to follow a similar path.

Franck Darnet

My sources of inspiration are nature, art, architecture, fashion, cars... but the most important one is humankind.

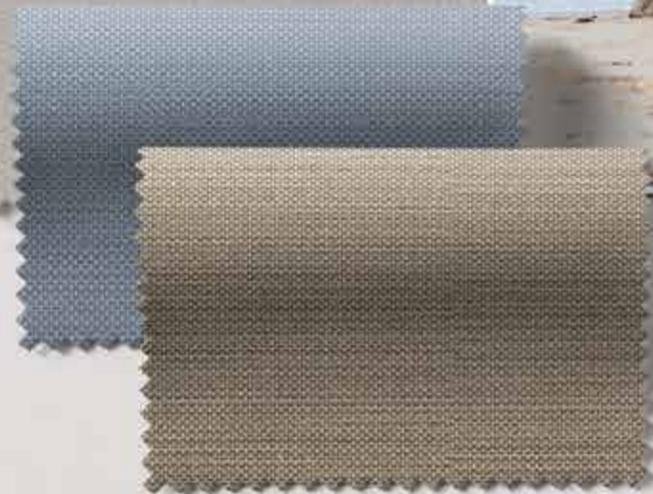

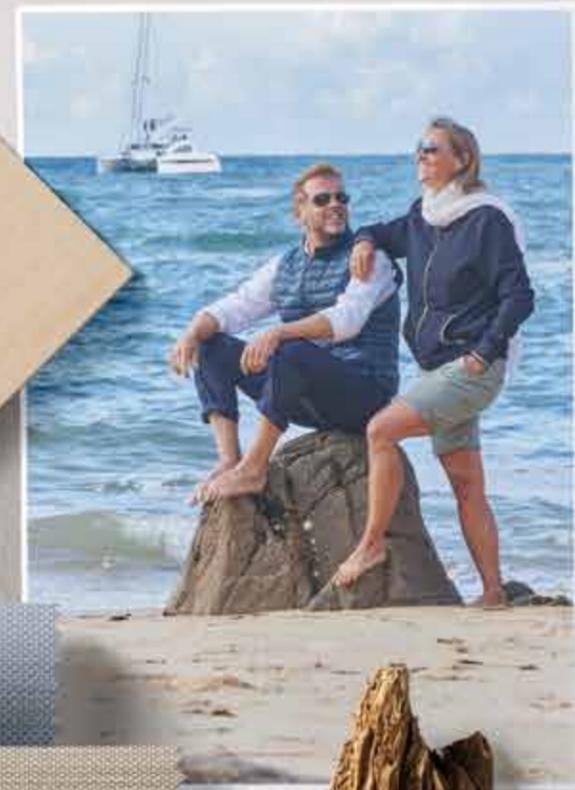

I think human beings should be the centre of our attention.

our design statement

interior materials

Woods for furniture and floorboards; fabrics for upholstery, headlining and cushions; composite work surfaces. There is a world of choices waiting for you in the interior of your Privilège catamaran. We have curated dozens of colours, grains, styles and finishes to help you decide.

Furniture wood is the key to defining your boat's interior character. For greater stiffness and lighter weight, all our joinery is composite, with a rich real-wood finish. This gives you a great range of colours, textures and feels. A natural wood finish is familiar and warm with its varying tint and grain. Engineered woods, on the other hand, offer the benefits of even lighter weight, uniform colour and finish but without compromising the aesthetics of real wood.

High-gloss Cherry wood gives a classic look (left)
Maple with a matte finish (below) is more contemporary

*Nothing creates
a warm,
harmonious feel
like real wood*

OTHER REAL WOOD OPTION

As an option, you can choose any real wood from our extensive library in satin or high-gloss finish.

INTERIOR furniture

WOOD VENEER

Oak Style satin varnish is standard. Canadian Chestnut and American Walnut are available in satin or high-gloss varnish. Oak Style and Teak* are only available in satin varnish

REAL WOOD OPTION

All are available in satin or high-gloss varnish, except Oak White Tinted* which is only in satin finish.

OAK NATURAL

OAK WHITE TINTED*

CHERRY

MAPLE

INTERIOR *floorboard*

Underfoot, your boat's floorboards have to look fantastic and perform even better. Flooring needs to be robust, stain-resistant, scratch-resistant and easy to lift. We use a natural wood veneer in a special, robust composite construction to achieve this. The standard is Resopal Valley Oak.

*Home
is a feeling you get
when you step
on board*

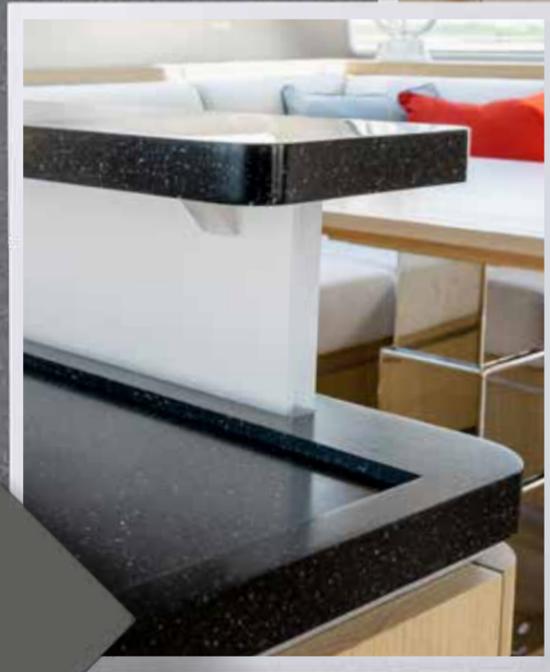

Privilège Signature 510: Neutral colours give a sophisticated finish. Oak Style satin varnish furniture is complemented by Silver Oak flooring

Contrasting woods for floor and furniture work well. Here it's Oak Style satin varnish cabinetry with Night Wood flooring on a Privilège Euphorie 5

Sophisticated natural stone look of black Cima

Frosty gives an elegant grey speckled finish

SOLIDS COLLECTION STANDARD

A solid colour is the standard finish for our worktops, where there are 31 colours to choose from. They range from natural tones and neutrals to striking green, blue, red and mauve.

ROBUST AND DURABLE

EASY CLEANING

ANTI BACTERIAL

INTERIOR
worktops
GALLEY . HEADS

High quality composites are used to make our durable work surfaces. The finish options here are as wide as they would be at home. Monotone colours range from elegant neutrals to bright reds, greens or pinks. Or choose a realistic stone effect, like quartz, granite and sandstone. It can sparkle as much or as little as you please!

OTHER COLLECTIONS OPTION

Over 35 alternative options, including Volcanics, Lucia, Granite, Quartz, Sand, Pearl and Lucent

A light-coloured headlining will help to reflect light and brighten the saloon or cabin. For more sophisticated interior effects, a darker tint or even a colour can give great results. Think of this like the paint on the walls of your home.

 ABRASION RESISTANT

INTERIOR
upholstery

Furniture upholstery should either carefully match or contrast with the woods used. We also use upholstery to create accents and to soften edges. Whether you choose a standard woven fabric or an optional leather, it will be supplied by a top manufacturer and stand up to the rigours of marine use.

Light colours create a bright, modern space – Signature 510 in Pure White. More vibrant colours like Jade on the Euphorie 5 (left) can provide a striking focus.

*Select your design choices
with our online tool*

Contact us for more details, or request a call-back from your local dealer on any catamaran of our range. We will be able to advise you on every element of the specifications, from downwind sails to interior upholstery.

One of a kind: Our flagship Privilège Serie 740 is a luxury catamaran like no other. Every element of the design and finish can be tailored to the owner's specific wishes. And with no such thing as 'standard' for this boat, everything is an option. So you'll understand why we can't offer a lookbook for the spectacular Privilège Serie 740.

And of course, if you'd like a little expert advice we can arrange for designer Franck Darnet to help you craft your unique Privilège.

You will see it, feel it as soon as you step aboard. Quality runs through everything that we do at Privilège. Far more than a label, it goes to the heart of our philosophy. That's why our bluewater catamarans are admired by those in the know. From the lamination behind the bulkhead where you can't see it to the fine leather upholstery in plain view, everything is to the highest standard.
